

MAYOR'S CORNER

April and May are months that most of us look forward to after coming out of the winter doldrums. All of us enjoy the color and fragrance of the flowers and many gardeners look forward to planting their vegetables. However, for your town staff and council, these 2 months are challenging in many ways. The most difficult task is developing the financial budget for the upcoming year. The 2023-24 fiscal budget begins on July 1st and runs through June 30, 2024.

It all starts with our town manager and department heads working together to establish our expenditures and our income. It's not as easy as it sounds. When our income is low, as it is now with the loss of Burger King and Primis Bank, then we have to either find other means of income or cut down on our expenses. This year we had to do both. Our Town manager and department leaders worked long hours with our treasurer to cut out anything that wasn't a priority. Our council then reviewed the proposed budget and cut some more. Sadly, some of the items that were deleted this year have been in previous years' budget proposals and so "the can continues to get kicked down the road". After many work sessions and the red ink stops flowing, then the council holds a public hearing and council meeting to approve the final budget.

As I mentioned earlier, we have lost substantial revenue with the closings of Burger King and Primis Bank. Most

citizens don't realize the amount of taxes that our businesses pay and the large percentage of our town income that they are responsible for. The water, sewer and trash bill only covers what it costs the town to provide these services. We are not allowed to make a profit from it to use for other expenditures. Real estate and personal property tax is a small percentage of our income. Meals tax and business licenses provide a much larger slice of our revenue. As I type this article, there are other town businesses that are having a difficult challenge to remain open. Their closure crushes the entrepreneurs life's dream of owning a successful business and takes away the mutual customer of the other local stores.

WE NEED TO STOP THE CLOSURES OF OUR BUSINESSES! For those citizens in the town limits, and on the outskirts, who say we don't need more residents I STRONGLY disagree. Without more people to purchase the products and services that our businesses provide, then we will see more stores closing. Thus, there will be less tax revenue for the town. Then in order to maintain services the real estate and personal property tax will need to go up. Nobody wants higher taxes! Therefore, support your local businesses, and study the benefits of welcoming more residents to our town. Your town council has.

Larry A. Bompiani
New Market Mayor

INDEPENDENCE DAY CELEBRATION

Date: Wednesday, July 5th, 2023

Time: 5:00 p.m. -9:00 p.m.

Location: New Market Community Park

Cost: FREE ADMISSION

Come join us for our Independence Day Celebration! Food trucks, games, live entertainment by Little Walter and the Convictions, and FIREWORKS at 9:20 p.m.

Brought to you by the Town of New Market, New Market Independence Day Celebration Committee, and several sponsors.

ACH AVAILABLE FOR PAYMENT OF YOUR UTILITY BILL

We know how busy our customers are and how quickly the due date comes around for water/sewer bills. We want to remind citizens that we offer the option of paying their water bill through automatic deduction (ACH) from their bank account each month. This could save writing a check, paying postage, or even a trip to the Town Office. Forms for ACH can be picked up in the Town Office or downloaded from the Residents tab of the Town's website, www.newmarketvirginia.com. Completed forms should be returned to the Town Office. Automatic deductions will be deducted from your bank account on the fifteenth of each month, unless it falls on a weekend or holiday; then it will be deducted on the next business day. The amount due on your bill is the amount that will be deducted from your account. If you have questions or want to know more about this service, please call the Town Office at 540-740-3432.

LIBRARY NEWS

We'll be "All Together" having a great time at the New Market Library's Summer Reading Program! All programs are at the library unless otherwise noted.

- Wednesday, June 14, 10:00 am: **"All Together Now: Salute to Hometown Heroes"** (Flag Day) Police Chief Chris Rinker and Benelli, as well as other town workers. This is our Summer Reading Kickoff event. Pick up reading logs and get started on reading for rewards during summer months!

- Wednesday, June 21, 10:00 am: **"All Together in Nature: Pelts and Paws Together"** Megan Dellinger, Education Specialist at Seven Bends State Park.

- Tuesday, June 27, 6:30 pm: **Building Together - LEGO Program** with Andrew Kipps (ages 6 to 12).

- Thursday, June 29, 10:00 am: **"Reading with the Rebels"** at Rebel Park with New Market Rebels baseball players.

- Tuesday, July 11, 10:00 am: **"Puppets Share Their**

Voice" with the Bowman Library teen puppeteers.

- Wednesday, July 19, 10:00 am: **"The Magic of Brian Bence"** magic show.

- Wednesday, July 26, 10:00 am: **"Soil and Water Working Together to Grow Plants"** hands on stations with the Northern Shenandoah Valley Master Gardeners. Each child will receive a flower to plant!

- Tuesday, August 1, 6:00 pm: **National Night Out** at the New Market Community Park; the library will have a table and activities!

Attention teens and adults! Stop by the library to learn of our summer reading program for Young Adults and Adults!

YARD SALES

As spring approaches we begin thinking about yard sales. The guidelines below are a good reminder on the rules and regulations in town regarding these sales.

Guidelines

1. All individuals conducting a yard sale are required to obtain a yard sale permit from the Town Office prior to the sale.

2. In residential districts, a household is only allowed two yard sales annually. There is no fee associated with permits for these two sales and sales cannot exceed a 72-hour consecutive period.

3. In commercial districts, a household is allowed two yard sales annually with no fee associated with the permits for these two sales. If the householder wishes to hold additional sales an annual permit must be obtained at a fee as set from time to time by the Town Council. Each yard sale in a commercial district cannot exceed a 72-hour consecutive period every three months.

4. **Signs shall NOT be placed on telephone poles, power poles, street signs, public trees, sidewalks or any other publicly owned and/or maintained places or structures.** All signs shall be limited to private property and shall be removed within 24-hours after the conclusion of the sale.

5. During the weekend of the *Route 11 Yard Crawl*, the Town will not count participation in that event towards total allowable yard sales on an annual basis.

6. Civic organizations are exempt from the above regulations, except for #4.

Questions?

You may contact the Town Office, Monday – Friday, during regular business hours with questions regarding this service.

OUR TOWN ENHANCEMENT COMMITTEE

Are you interested in helping with Town events like Cross Roads Music Fest? Are you more interested in public art projects? Do you have graphic design talent, or interest in cultivating partnerships?

Then we are looking for YOU! The Our Town Enhancement committee focuses on improving the quality of life in New Market by creating a unique and thriving downtown environment, preserving our Town's history, strengthening our position as a recreation and tourism destination and establishing sense of place by developing community pride and involvement.

If you are interested in learning more, or signing up, contact Amber Smoot at 540-740-3432 or a.smoot@newmarketvirginia.com

MOVIE NIGHTS IN THE PARK 2023

Watch a movie under the stars in the New Market Community Park!

Date: Saturday, June 17th, 2023

Movie Title: Top Gun Maverick

Time: Sundown-approx. 8:50 p.m.

Where: New Market Community Park
9670 Cadet Rd, New Market

Cost: FREE

For the best evening, make sure to bring a chair/blankets and snacks for viewing comfort. Dogs are allowed, but MUST be on a leash, and owners are to be mindful of others. Thank you to our sponsors Sheila Hall, Realtor with Coldwell Banker Premiere, and Southern Kitchen

Annual Drinking Water Quality Report

Town of New Market

INTRODUCTION

This Annual Drinking Water Quality Report for calendar year 2022 is designed to provide you with valuable information about your drinking water quality. We are committed to providing you with a safe and dependable supply of drinking water, and we want you to understand the efforts we make to protect your water supply. The quality of your drinking water meets all state and federal requirements administered by the Virginia Department of Health (VDH).

If you have questions about this report, want additional information about any aspect of your drinking water, or want to know how to participate in decisions that may affect the quality of your drinking water, please contact:

Mr. John Griggs, Chief Operator, Town of New Market, 540-740-9576

You can obtain additional information by attending Town Council meetings held at 6:30 p.m. the third Monday of each month in the Town Council Chambers.

GENERAL INFORMATION

As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and can pick up substances resulting from the presence of animals or from human activity. Substances (referred to as contaminants) in source water may come from septic systems, discharges from domestic or industrial wastewater treatment facilities, agricultural and farming activities, urban storm water runoff, residential uses, and many other types of activities. Water from surface sources is treated to make it drinkable while groundwater may or may not have any treatment.

All drinking water, including bottled drinking water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791) or by visiting their website at EPA.gov.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immune-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

SOURCES AND TREATMENT OF YOUR DRINKING WATER

Your drinking water came from groundwater and groundwater under the influence of surface water obtained from six drilled wells. Water is distributed throughout Town by a booster pump station, one storage tank and variously sized distribution piping.

Treatment of Wells 1 and 6 consists of chlorination. As water is pumped from the wells, a chlorine solution is injected into a combined well discharge line to disinfect the water prior to distribution.

Treatment of Wells 2, 4, 8, and the Shenandoah Valley Academy (SVA) Well consists of membrane filtration and chlorination. Water pumped from the wells passes through a basket strainer to pretreat the water prior to membrane filtration and chlorination. The membrane filtration eliminates turbidity and bacteria from the water while chlorination is used to disinfect the water prior to distribution.

SOURCE WATER ASSESSMENTS

A source water assessment for the Town of New Market was completed by the Virginia Department of Health (VDH). This assessment determined that the Town's water sources may be susceptible to contamination because they are groundwater or surface influenced groundwater exposed to a wide array of contaminants at varying concentrations. Changing hydrologic, hydraulic, and atmospheric conditions promote migration of contaminants from land use activities of concern within the assessment area. More specific information may be obtained by contacting the water system representative referenced within this report.

DEFINITIONS

In the table and elsewhere in this report you will find many terms and abbreviations you might not be familiar with. The following definitions are provided to help you better understand these terms:

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Level 1 Assessment: A level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system.

Level 2 Assessment: A level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E-coli MCL violation has occurred and/or why total coliform bacteria have been found in our water system on multiple occasions.

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contamination.

Nephelometric Turbidity Unit (NTU): A measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

Non-detects (ND): Lab analysis indicates that the contaminant is not present.

Parts per billion (ppb) or Micrograms per liter ($\mu\text{g/L}$): One part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

Parts per million (ppm) or Milligrams per liter (mg/L): One part per million corresponds to one minute in two years or a single penny in \$10,000.

Picocuries per liter (pCi/L): A measure of the radioactivity in water.

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Variations and exemptions: State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

QUALITY OF OUR DRINKING WATER

Your drinking water is routinely monitored according to Federal and State Regulations for a variety of contaminants. The table on the next page shows the results of our monitoring for the period of January 1 to December 31, 2022.

Most of the results in the table are from testing done in 2022. However, the state allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of our data, though accurate, is more than one year old.

The tables below list only those contaminants that had some level of detection. Many other contaminants have been analyzed but were not present or were below the detection limits of the lab equipment.

Maximum Contaminant Levels (MCL's) are set at very stringent levels by the U.S. Environmental Protection Agency. In developing the standards EPA assumes that the average adult drinks 2 liters of water each day throughout a 70-year life span. EPA generally sets MCL's at levels that will result in no adverse health effects for some contaminants or a one-in-ten-thousand to one-in-a-million chance of having the described health effect for other contaminants.

Microbiological – At least two bacteriological samples are collected from the distribution system each month.							
Contaminant	Unit of Measurement	MCLG	MCL	Level Found	Violation	Date of Sample(s)	Typical Source of Contamination
Total Coliform bacteria	presence or absence	0	presence of coliform bacteria in >1 sample per month	0	No	monthly	naturally present in the environment
Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful, waterborne pathogens may be present or that a potential pathway exists through which contamination may enter the waterworks.							
Disinfection Residual							
Disinfectant/Unit of Measurement	MRDLG	MRDL	Level Found (Range)	Violation	Date of Sample	Typical Source of Contamination	
Chlorine, ppm	4	4	1.14 (1.01 – 1.24)	No	monthly	By-product of drinking water chlorination	

Turbidity¹							
Contaminant/Unit of Measurement	MCLG	MCL	Highest Level Found	Lowers Monthly % <0.3 NTU	Violation	Date of Sample	Typical Source of Contamination
Turbidity NTU	NA	TT ²	0.240	97%	No	Daily	Soil Runoff

¹ Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of our water quality and the effectiveness of the filtration process.
² Turbidity TT = 1 NTU Max; ≤ 0.3 NTU in at least 95% of all samples tested.

Inorganic Contaminants								
Contaminant/ Unit of Measurement	MCLG	MCL	Level Found		Violation	Date of Sample		Typical Source of Contamination
			Rt. 211 Plant	Well 1/6		Rt. 211 Plant	Well 1/6	
Barium ppm	2	2	0.030	0.022	No	2022	2022	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
Nitrate ppm	10	10	3.65	5.36	No	2022	2022	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits
Sodium Ppm	-	-	29	8.15	NA	2022	2022	Erosion of natural deposits; de-icing salt runoff; water softeners

*There is presently no established standard for sodium in drinking water. An EPA advisory recommends water containing 30 to 60 mg/L should not be used as drinking water due to esthetics such as taste and color. Water containing more than 20 mg/L should not be used by persons whose physician has placed them on severely restricted sodium diets.

Radiological Contaminants								
Contaminant/Unit of Measurement	MCLG	MCL	Level Found		Violation	Date of Sample		Typical Source of Contamination
			Rt. 211 Plant	Well 1/6		Rt. 211 Plant	Well 1/6	
Beta emitters pCi/L	0	50*	2.2	1.6	No	2016	2017	Decay of natural and man-made deposits
Alpha emitters pCi/L	0	15	<0.39	<0.44	No	2016	2017	Erosion of natural matter
Radium	0	5	<0.5	<0.5	No	2016	2017	Erosion of natural matter

*The MCL for beta particles is 4 mrem/yr. EPA considers 50 pCi/L to be the level of concern for beta particles

Lead and Copper						
Contaminant/Unit of Measurement	MCLG	MCL	90 th Percentile; # of Samples > AL	Exceedance	Date of Sample	Typical Source of Contamination
Lead ppb	0	AL=15	<2 No samples exceeded the AL	No	2021	Corrosion of household plumbing systems; Erosion of natural deposits
Copper ppm	1.3	AL=1.3	0.0844 No samples exceeded the AL.	No	2021	Corrosion of household plumbing systems; Erosion of natural deposits
Disinfection Byproducts						
Contaminant/Unit of Measurement	MCLG	MCL	Level Found (Range)	Violation	Date of Sample	Typical Source of Contamination
Haloacetic Acids (HAA5) ppb	NA	60	0.0 – 3.1	No	Quarterly 2022	By-product of drinking water disinfection
Total Trihalomethanes (TTHM) ppb	NA	80	2.3 – 6.3	No	Quarterly 2022	By-product of drinking water disinfection

Lead Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Town of New Market is responsible for providing high quality drinking water, but cannot control the variety of materials used in the plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on the lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline (800-426-4791) or at <http://www.epa.gov/safewater/lead>.

Sodium Information

There is presently no established standard for sodium in drinking water. An EPA advisory recommends water containing 30 to 60 mg/L should not be used as drinking water due to esthetics such as taste and color. Water containing more than 20 mg/L should not be used by persons whose physicians has placed them on severely restricted sodium diets.

Violation Information

We are in full compliance with all water quality, monitoring, and reporting requirements, and no violations occurred during the calendar year 2022.

The waterworks owners prepared this Drinking Water Quality Report with the assistance and approval of the Virginia Department of Health (VDH). Please call if you have questions.

Signature: Joe Greigs

Date: 04/13/2023

TOWN OF NEW MARKET TAX INFORMATION

The information for the 2023 Real Estate and Personal Property tax bills was provided late to the Town of New Market. Therefore, The Town of New Market **has extended the deadline for payment of the 2023 1st half installment without penalty to June 26, 2023.** Failure to receive a bill does not relieve the taxpayer of any additional charge.

The bill you receive is for the first 6 months of 2023. If you wish to pay your bill for the full year, please contact us and we will give you the correct total.

CROSS ROADS MUSIC FEST 2023

We are back with our 9th annual Cross Roads Music Fest! This fun, family friendly, community oriented music series has become a staple for summer entertainment.

June 23rd - PRIME

August 28th - Who Shot John

September 15th - Out of Spite

October 14th - Big City Band

All concerts are FREE ADMISSION and start at 6:30 p.m. at the New Market Rebel Baseball Field.

There will be food trucks on site, and a beer/wine garden. (Must be at least 21 years old to consume/purchase alcohol and NO outside alcohol is permitted). Dogs are not permitted in the baseball field.

ADJUSTMENT POLICY FOR FILLING SWIMMING POOLS

Swimming pool adjustments will be limited to one (1) adjustment per calendar year per customer. To qualify for this annual adjustment, the customer must submit an Application for Swimming Pool Credit prior to the filling of a swimming pool. In addition, the meter must be read by Town staff before and after the filling of the pool. Customers that are billed for water only or have a water-only meter will not qualify for a pool credit. Splasher pools also known as “kiddie” pools, hot tubs, or spas will not qualify for a pool adjustment. Please contact the Town Office at 540-740-3432 for a copy of the guidelines and an Application for Swimming Pool Credit. Applications are also available on our website at www.newmarketvirginia.com.

SHELTER RENTAL 2023

Shelter #1 (11:00 a.m.-4:00 p.m.)	\$30.00
Shelter #1 (4:00 p.m. – closing)	\$30.00
Shelters #2-4 (11:00 a.m.-4:00 p.m.)	\$25.00
Shelters #2-4 (4:00 p.m. – closing)	\$25.00
Shelters #5-6 (11:00 a.m. - 4:00 p.m.)	\$20.00
Shelters #5-6 (4:00 p.m. - closing)	\$20.00
Gazebo (All Day)	\$25.00

PET WASTE

Pet waste left on the street or lawn does not just go away or fertilize the grass. Rain washes pet waste down storm drains and into waterways like rivers, bays, and beaches. Pet waste also provides a nitrogen source for algae blooms, which deplete the water of oxygen and can make people and animals sick.

The Town of New Market has an ordinance regarding pet waste. Sec. 14-3.1 – Unlawful to allow dogs to defecate on public or private property; exception

- No person shall knowingly or willfully allow a dog belonging to him or in his custody to defecate on the private property of other persons without the consent of such persons, or to defecate on public property; except that defecation by a dog on such property shall not constitute a violation of this section if the owner or person in custody of the dog immediately removes the material defecated and disposes of it in a safe and sanitary manner.
- Any person violating and foregoing provisions of this section shall be guilty of a class 4 misdemeanor for each violation.

What You Should Do

• Keep a supply of bags handy

When walking your pet, take a bag with you for quick waste pick-up. It helps to keep a supply of bags near your dog leash and to tie the bags on the leash if you don't have a pocket or pack. Consider re-using plastic newspaper bags or bread bags. Use the bag to pick up the waste, and tie it closed. When at home, long-handled pooper-scoopers are available at pet stores make it easy to pick up after pets without stooping over.

• Dispose of pet waste properly

Place sealed bags of pet waste in the trash. It may help to double bag dog waste or kitty litter. Do not throw waste near or into storm drains, and do not dump kitty litter outside. Do not flush pet waste down your toilet.

• Follow local rules and signs

Some cities and towns have fines for not picking up waste on streets, in parks, or in dog parks.

• Help others remember to scoop the poop

Don't let your pet pollute, and encourage those around you to be responsible pet owners, too.

SEASONAL LEAF AND GRASS REMOVAL

Curbside removal service for leaf and grass and other organic yard debris continues every Friday through November. Leaves must be in biodegradable bags and placed curbside by noon. Please visit our town website www.newmarketvirginia.com or call the town offices at 540-740-3432 for more information or questions pertaining to this service.

CALENDAR OF EVENTS

June 2023

- 2 Lawn and Leaf Pickup
- 9 Lawn and Leaf Pickup
- 15 Water/Sewer Bills Due**
- 16 Lawn and Leaf Pickup
- 17 Movie Night in the Park (sundown approx. 8:40pm)**
- 19 Town Office Closed in Observance of Juneteenth**
- 20 Town Council Meeting 6:30 pm
- 23 Lawn and Leaf Pickup
- 23 Cross Roads Music Fest New Market Park 6:30-9:00pm**
- 25 Movie Night in the Park at sundown (approx. 8:40pm)**
- 26 First Half Real Estate and Personal Property Taxes Due**
- 30 Lawn and Leaf Pickup

July 2023

- 4 Town Office Closed in Observance of Independence Day**
- 5 Independence Day Celebration**
- 7 Lawn and Leaf
- 14 Lawn and Leaf
- 15 Water/Sewer Bills Due**
- 17 Town Council Meeting 6:30 pm
- 21 Lawn and Leaf
- 27 Congress St. Block Party**
- 28 Lawn and Leaf
